Total	3,345,813	3,466,587	3,586,731

- (1) Changes to the form of the ethnicity question used in the 1996 Census has resulted in some data that is not consistent between 1991 and 1996 nor between 1996 and 2001.
- (2) The ethnic data in this table has been output using up to three responses per person. If a person gave more than three responses, the three ethnic groups output are those that take highest priority under the priority recording system. This is the same method used in 1991 and 1996. Data for 2001 can also be output with up to six responses.
- (3) Includes all of the people who stated each ethnic group, whether as their only ethnic group or as one of several ethnic groups. Where a person reported more than one ethnic group, they have been counted in each applicable group.
- (4) Categories in this table have been output where the total number of responses in a category have exceeded 1,000. All remaining categories have been grouped as 'Other...'.  
 (5) The 1991 and 1996 data were included within 'Other African nec'.

All cells in this table have been randomly rounded to base 3.
